North America 2026 Scooters Production

Power Systems Research
Data · Forecasting · Solutions™

This product information comes from industry interviews and from two proprietary databases maintained by Power Systems Research: EnginLink™, which provides information on engines, and OE Link™, a database of equipment manufacturers.

470,200

2026 Production Forecast

470,200 units is the estimate by Power Systems Research of the number Scooters, Minibikes, and Mopeds expected to be produced in North America during 2026.

Scooters/Minibikes/Mopeds are motorized 2-wheeled vehicles used primarily for recreation.

This product information comes from industry interviews and from two proprietary databases maintained by Power Systems Research: **EnginLink™**, which provides information on engines, and **OE Link™**, a database of equipment manufacturers.

Market Share. Mexico facilities dominate the scooter market with rounding to 100% of total units produced. Italika leads with 80.5%, followed by Honda with 19.5%. US-based Go-Ped is the third producer with 359 units.

Trends. In 2025, production of Scooters in North America was basically flat, increasing only 0.25%. Expect production to remain flat with a nominal 1% decline in 2026. Scooters are a popular mode of transportation that has seen saturation in the marketplace and weakened demand. The demand for efficient and eco-friendly models will boost the electric scooter market along with the threat of rising gas prices. Not only are scooters convenient and offer independence, but they also make for faster commutes as opposed to using other modes of transportation; electric models are also extremely popular. Expect production of scooters to increase 15% by 2035.

Battery Electric
2024: 170
2025: 111 (35% decrease)
2026: 126 (12.6% increase)

Notes:

- In 2025:
  - » Bell produced 6 units
  - » Go Ped (Stand-On Scooters) produced 90 units
  - » Z Electric produced 15 units
- Gas powered models still prevail over battery operated models.
- Go-Ped manufactures stand-on scooters. **PSR**
